

ELECTRIC FIRE/EMT BIKE

EE 750

Enabled Enterprises, along with manufacturing partner Cruise Car, Inc., a General Services Administration (GSA) approved manufacturer has developed a specialized high quality Electric Bicycle.

Our EE 750 Electric Fire/EMT Bike has multiple task applications for fire departments, police departments, campus security, military and government facilities.

This fat tire all terrain bike is perfect for streets and trails. Our EE 750 Fire/EMT Patrol Bike has the ability to go through sand, snow and grass or cruise the streets all day on a single charge. The EE 750 has proven to be a very effective emergency vehicle and a positive community relations builder.

Bikes have durable rust free aluminum frames and powerful 48V 750W motors. The three settings allow for seven speed manual pedaling, pedal with electric assist or with the twist of the wrist full electric power up to 25 MPH. Can get you to where you need to be quickly. Built and sold by veterans.
